Textiles Arts and Crafts

November 4 – 17, 2026

Optional Amami Island November 17 -21

In Japan, Nature held her breath. All longing was put to sleep in the stillness, and all was distilled into a clean simplicity. The smell of woodsmoke, the drift of incense; a procession of monks in black-and-gold robes, one of them giggling in a voice yet unbroken; a touch of autumn in the air, a sense of gathering rain.”

Your Destination Awaits

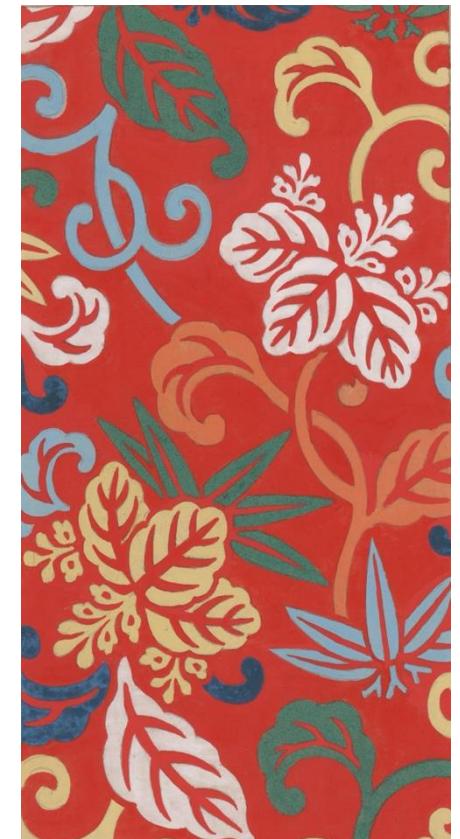

Explore the wonder that is Japan: a unique culture steeped in history, moving at the speed of a bullet train.

From first functional ceramics to today's fine pieces of art, traditional crafts are embedded in Japanese culture and daily life. Japanese textiles, pottery and ceramics, lacquerware, metalworking, doll-making, woodworking and papermaking are truly in a class of their own. Join us to explore the best of Japan on this tour.

"One cannot be a textile or arts and crafts appreciator without eventually taking the road to Japan. Tokyo's thrum of modernity and Kyoto's cultural ethos are a perfect counterpoint to serene rural backroads where generations of exquisite craftsmanship have flourished for centuries. By visiting large cities and tiny villages, I have curated a 14-day exploration of multiple aspects of life in Japan through the lens of textiles, arts, and crafts. Intimate artisan studios, hands on workshops, meticulous formal gardens, feudal castles, splendid fibre arts, fine pottery, culinary beats . . . we cannot wait to share it all with you!"
